G61V

The quietest furnace
you can buy*

Dave Lennox *Signature*[™] Collection G61V Gas Furnace

Innovation never felt so good.[™]

SilentComfort[™] technology for smooth, quiet heating

Two-stage, variable speed operation minimizes up-and-down temperature changes

Enhanced humidity control removes moisture from the air for improved comfort

High efficiency can save you hundreds of dollars each year

ENERGY STAR[®]-qualified

Want some peace and quiet? The G61V gas furnace more than delivers.

Innovative SilentComfort[™] and variable speed technology make the G61V the quietest furnace you can buy—competitive furnaces are up to 100% louder.

THE QUIETEST FURNACE YOU CAN BUY*

The G61V is not only super-quiet—it's also ultra-efficient. Designed with the finest features available, the G61V offers comfort like you've never experienced and savings like you've never imagined. It takes furnace technology to new heights, so your utility bills reach new lows. You gain comfort and save money.

EFFICIENCY RATING

Up to 94.6% AFUE (Annual Fuel Utilization Efficiency).

WARRANTY

Limited lifetime warranty on the heat exchanger.

5-year limited warranty on all remaining covered components.

SOUND INTENSITY*

*Based on sound pressure levels during steady-state, high-fire operation of Lennox G61MPV-36B-070 and leading competitive units at mid-point temperature rise and minimum external static pressure when set up per Section 4.5.3 of ARI 260.

Variable speed technology improves comfort and air quality

A variable speed motor moves at different speeds to precisely control the flow of air throughout your home. Better airflow control means a better balance of comfort.

When the variable speed motor increases speed, it does so smoothly and gradually. During summer months, this allows your air conditioner to remove moisture from the air for improved comfort and better air quality.

Two levels of heating, a higher level of comfort.

Unlike typical single-stage furnaces, the G61V has two levels of heating. It's like having two furnaces in one: a small furnace (first stage/low heat) for mild days and a larger furnace (second stage/high heat) for extremely cold days. This minimizes temperature swings within your home.

TEMPERATURE SWING COMPARISON

Compared to an older furnace, the G61V can save you hundreds of dollars each year

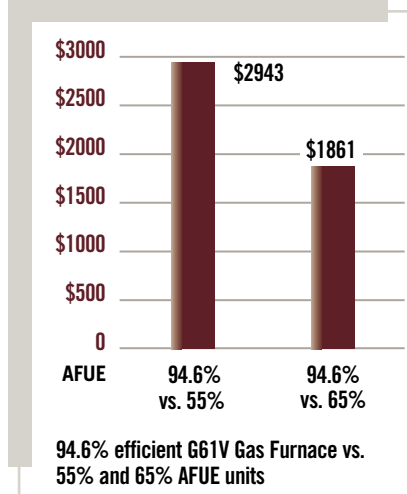

The G61V provides heating efficiencies of up to an impressive 94.6% AFUE. The higher the efficiency rating, the higher your energy savings. In the case of the G61V, those savings can translate to hundreds of dollars each year.

As an added benefit, the G61V's variable speed motor uses about two-thirds less electricity than a standard motor. During cooling operation, this typically results in an efficiency gain of 1 SEER (Seasonal Energy Efficiency Ratio), which can add to your energy savings.

VARIABLE SPEED MOTOR

3-YEAR HEATING SAVINGS

Exclusive SilentComfort™ technology maximizes your comfort, while minimizing sound

Since the first stage (low heat) meets your household heating demands approximately 80% of the time, the G61V furnace is much quieter than standard, single-stage furnaces. And the variable speed motor ramps up to speed slowly, so there's no sudden blast of air at startup. A specially insulated cabinet further reduces operating sound.

Slow, continuous air circulation creates better indoor air quality

When you set your thermostat to "FAN," the G61V continues to slowly circulate air throughout your home. That means you can run the fan constantly without running the risk of increasing operating costs. It also means better indoor air quality—low-speed fan operation increases the effectiveness of your filters, allowing them to capture and remove more contaminants.

This chart depicts potential energy savings you can expect from the G61V furnace, versus older furnaces with lower efficiency ratings. Criteria used in this example are 2,000 full-load heating hours, with a 60,000 Btuh heating design load and \$1.074 ccf for gas. Your actual savings may vary, depending on the weather patterns in your local area, local fuel rates and your individual lifestyle. Source: Environmental Protection Agency (EPA) national average energy rates.

CONTINUOUS COMFORT

The **G61V Variable Speed Furnace** is designed to easily integrate with other quality Lennox® products, providing a total home comfort solution:

XC21 Air Conditioner is the most quiet and efficient central air conditioner you can buy.**

PureAir™ Air Purification System cleans the air in your home better than any other single system you can buy.

SignatureStat™ Home Comfort Control combines the functions of a humidistat and thermostat into a single device.

Harmony III™ Zoning System provides customized, room-to-room comfort.

Leading the way in comfort and energy efficiency

For the third consecutive year, the Environmental Protection Agency (EPA) and the Department of Energy (DOE) have selected Lennox as an ENERGY STAR® Manufacturing Partner of the Year. Lennox is the only heating, ventilation and air conditioning (HVAC) manufacturer ever to be chosen for this annual award. This prestigious honor reflects Lennox' ongoing commitment to producing

Partner of the Year

high-quality, high-efficiency products and energy-saving innovations.

Note: Due to Lennox' ongoing commitment to quality, all specifications, ratings and dimensions are subject to change without notice. Warranties noted apply to residential applications only and are limited. Please see actual warranty for details.

Many Lennox® home comfort systems meet ENERGY STAR® requirements when used with appropriate components. Ask your dealer for details.

Lennox is proud of the fact that these products have earned the Good Housekeeping Seal.

**A combination of sound ratings established per ARI's test standard: 270 and efficiency ratings established per ARI's test standard: ANSI/ARI 210/240-94.

GAIN COMFORT AND SAVE MONEY

Duralok Plus® Heat Exchanger – Made of patented ArmorTuf™ steel, allows furnace to reach super-high efficiency levels.

Two-Stage Gas Valve – Quietly adjusts the amount of gas to accommodate two levels of heating for better temperature control.

Special Sound-Absorbing Insulation – Further reduces sound for quiet operation.

Variable Speed Motor – Super-efficient motor quietly controls flow of air for added humidity control, indoor air quality and comfort.

SureLight® Control Board – Controls furnace operation to ensure high reliability and efficiency.

Durable Steel Cabinet – Made to last with an attractive, high-quality textured paint finish.

CONTINUOUS COMFORT NETWORK

Lennox® heating, cooling and indoor air quality products are designed to provide efficient, economical comfort—not only as individual units, but also together as an integrated system. This combined network of products delivers on every comfort count, from consistent temperatures and balanced humidity to improved indoor air quality.

DEALERS YOU CAN COUNT ON

Choosing the right dealer for your heating, cooling and indoor air quality needs is every bit as important as choosing the right brand. We think you'll agree our dealers are a big reason you can count on quality customer service when you call.
